Toolkit,Next,Node,Express,Mongoose,Prisama,Redis,Mongo DB,Postgresql

## Interested

- Interesting in learning new language to work and as a team
- Good personality and really energetic

## Experience

-I have extensive experience teaching React in MMSIT and helping students learn new skills. As a seasoned web developer, I have a deep understanding of the React framework and have used it to develop a range of applications, from simple single-page web apps to complex enterprise-level solutions.t My experience as a teacher has given me the opportunity to share my knowledge and expertise with others, and I take great pride in helping my students develop a solid foundation in React.

-I’ve experience over 1year and work as a team member for NOVAX

-As a language learner, I am highly adaptable and able to quickly adjust my approach to suit different learning styles and environments. I am committed to expanding my language skills and regularly set achievable goals to measure my progress. My language skills have allowed me to effectively communicate with colleagues and clients in various contexts, demonstrating the practical application of my language learning abilities."

## Objective

- To be able quality in given position and will serve not only as in carrier but also a life challenge
- Willing to learn from seniors
